---

## PROFESSIONAL SUMMARY

---

Backend Java Developer with 1+ year of experience building and optimizing scalable applications using Java and Spring Boot. Hands-on experience implementing multithreading logic in production systems to improve performance and concurrency. Familiar with AWS and Azure cloud platforms, CI/CD pipelines, and 3-tier architecture deployments. Contributed to applied AI systems through prompt tuning using Gemini models. AWS Certified Solutions Architect – Associate and Cloud Practitioner.

## WORK EXPERIENCE

---

**Backend Engineer** | Cognizant | Jan 2025 – Present

- Contributed to the development of 2 core services within a microservices architecture, enhancing system functionality and reliability.
- Designed and implemented backend logic to filter and eliminate low-value data, reducing storage overhead and improving system performance.
- Automated prompt tuning across 1000+ test images and scenarios; improved AI model accuracy by 0.7% while reducing input token usage and operational costs.

## PROJECTS

---

**Three Tier Architecture Deployment** | AWS EC2, RDS, VPC, ALB, Terraform, GitHub Actions, Networking, Linux  
[github.com/LikhithB/AWS\\_Projects](https://github.com/LikhithB/AWS_Projects)

- Designed and deployed a scalable 3-tier architecture on AWS using EC2, RDS (MySQL), and VPC networking.
- Configured public/private subnets, NAT Gateway, security groups, and route tables for secure traffic flow.
- Implemented Auto Scaling Groups and Application Load Balancer for high availability, with RDS Multi-AZ and read replicas.
- Automated instance setup via user data scripts and managed services with systemd.
- Integrated CI/CD pipeline using GitHub Actions to automate deployment workflows, enabling consistent and repeatable infrastructure updates.
- Provisioned and managed AWS infrastructure as code using Terraform, enabling version-controlled, repeatable, and automated resource provisioning across environments.

## CERTIFICATIONS

---

AWS Certified Solutions Architect – Associate (SAA-C03) · Issued Feb 2026 [Verify Badge](#)

AWS Certified Cloud Practitioner (CCP) · Issued Sep 2025

## EDUCATION

---

**B.Tech Computer Science** | GMR Institute of Technology | 2021 – 2025 | 8.8 CGPA

## SKILLS

---

**Languages:** Java, Python, SQL

**Frameworks & Libraries:** Spring, Spring Boot

**Cloud & DevOps:** AWS (EC2, VPC, ELB, IAM, RDS, ALB), Docker, GitHub Actions, Git CI/CD, Terraform, Linux

**Tools & Platforms:** Git, GitHub, MS Excel, Postman, Testfully
